PolyTrade Finance

*Your Only Destination for Real World Asset Discovery,
Tokenization, and Liquidity*

About Us

At Polytrade Finance we are building financial technology for users, investors, lenders, and borrowers alike. We believe that the Blockchain will change financial systems forever, and a vibrant and efficient new frontier shall emerge - and we intend to make that happen soon.

From the first tokenized invoice pool to a new tokenization standard (ERC-6960) and bringing Real World Assets together at the RWA Marketplace, Polytrade Finance has blazed a path in the RWA space since launching in 2022 - and we aim to continue doing that for decades to come.
